17. ELECTRICITY TARIFF OF CHARGES

Fees payable with regards to electricity and electrical services

(1) Definitions:

- Active Energy Charge:** A charge for each kilowatt hour (kWh) of energy active consumed.
- Basic Charge:** A monthly basic charge is payable for all metered connections whether electricity is consumed or not and all vacant lots where a building can be erected for any purpose and which can be connected to the electricity reticulation network.
- Estimated Load:** The total connected load of an installation reduced by the diversity factors according to High Voltage: A nominal voltage of 132 000 Volt (± 5%), between any of the three phase conductors Low Voltage: A nominal voltage of 400 Volt (± 10%) between any of the three phase
- Maximum Demand Charge:** Payable for each kilowatt-ampere (kVA) supplied by the Council to a consumer during a demand integrating period of 30 (thirty) consecutive minutes in the month or such time periods in the month as may be applicable
- Medium Voltage:** A nominal voltage of 11 000 Volt (± 5%) between any of the three phase conductors.
- Notified Maximum Demand:** The consumer shall notify the Council in writing of the maximum demand in kilowatt-ampere (hereinafter referred to as "the notified maximum demand") which the consumer requires the Council to provide.
- One calendar-month's notice of any increase and twelve (12) months notice of any decrease in the notified maximum demand, must be given in writing by the consumer to the Council and of the date upon which the revised supply is required. From the date on which the revised supply is made available, the notified maximum demand shall be increased or decreased accordingly.
- Time-of-use tariff:** The time-of-use tariff is appropriate for a consumer who is able to manage the energy consumption and maximum demand by shifting load to the defined ESKOM's specified time schedule as amended from time to time.

(2) Conditions applicable to all tariff scales:

- (a) A consumer may apply to the Council to be billed on either the standard or the time-of-use tariff. A consumer may not apply to change over from the standard to the time-of-use tariff or from the time-of-use to the standard tariff more than once in a period of 12 months
- (b) A consumer may apply to the Council to reduce or to increase the size of a circuit breaker (MCB) or the notified maximum demand. A consumer may not apply to reduce the circuit breaker or to reduce the notified maximum demand more than once in a period of 12 months.

Domestic Life Line Supply

This scale shall apply to all customers who are registered with and approved by the municipality as indigent. The meter will be single-phase prepaid and the supply will be restricted to 20 ampere. A specific application must be made to limit the tariff.

(a) Active energy charge per kWh consumed

(3) Scale 1 : Domestic Supplies:

This scale shall also apply to churches, charitable organizations and sporting bodies with a maximum estimated load of 80A single phase but not exceeding 100A 3 phase. (Circuit Breaker sizes: 45, 60, and 80A single phase), (3 Phase : 45, 60, 80 and 100A).
